

**Q2 2024 EARNINGS  
PRESENTATION**

AUGUST 2024

# Disclaimer

## Forward-Looking Statements and Non-GAAP Financial Measures

This presentation includes certain financial measures that have not been prepared in a manner that complies with generally accepted accounting principles in the United States ("GAAP"), including, without limitation, EBITDA, Station Operating Income ("SOI") (collectively, the "non-GAAP financial measures").

These non-GAAP financial measures are not measures of financial performance in accordance with GAAP and may exclude items that are significant in understanding and assessing the Company's financial results. Therefore, these measures should not be considered in isolation or as an alternative to net income, net revenue, liquidity or performance under GAAP. Management believes that these non-GAAP financial measures provide meaningful information to investors because they provide insight into how effectively we operate our business. You should be aware that these non-GAAP financial measures may not be comparable to similarly-titled measures used by other companies. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the appendix of this presentation.

Statements in this presentation that are "forward-looking statements" are based upon current expectations and assumptions, and involve certain risks and uncertainties within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Words or expressions such as "believe," "plan," "intends," "expects," "expected," "anticipates" or variations of such words and similar expressions are intended to identify such forward-looking statements. Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about expected income, revenues and growth. Key risks are described in our reports filed with the Securities and Exchange Commission (the "SEC"), including in our annual report on Form 10-K and quarterly reports on Form 10-Q. Readers should note that forward-looking statements are subject to change and to inherent risks and uncertainties and may be impacted by several factors including:

- the effects of the COVID-19 pandemic, including its potential effects on the economic environment and our results of operations, liquidity and financial condition; and the increased risk of impairments of our Federal Communications Commission ("FCC") licenses and/or goodwill;
- external economic forces and conditions that could have a material adverse impact on our advertising revenues and results of operations;
- the ability of our stations to compete effectively in their respective markets for advertising revenues;
- our ability to develop compelling and differentiated digital content, products and services;
- audience acceptance of our content, particularly our audio programs;
- our ability to respond to changes in technology, standards and services that affect the audio industry;
- our dependence on federally issued licenses subject to extensive federal regulation;
- actions by the FCC or new legislation affecting the audio industry;
- increases to royalties we pay to copyright owners or the adoption of legislation requiring royalties to be paid to record labels and recording artists
- our dependence on selected market clusters of stations for a material portion of our net revenue;
- credit risk on our accounts receivable;
- the risk that our FCC licenses and/or goodwill could become impaired;
- our substantial debt levels and the potential effect of restrictive debt covenants on our operational flexibility and ability to pay dividends;
- the potential effects of hurricanes on our corporate offices and stations;
- the failure or destruction of the internet, satellite systems and transmitter facilities that we depend upon to distribute our programming;
- disruptions or security breaches of our information technology infrastructure and information systems;
- the loss of key personnel;
- our ability to integrate acquired businesses and achieve fully the strategic and financial objectives related thereto and their impact on our financial condition and results of operations;
- the fact that we are controlled by the Beasley family, which creates difficulties for any attempt to gain control of us; and
- other economic, business, competitive, and regulatory factors affecting our businesses, including those set forth in our filings with the SEC.

Our actual performance and results could differ materially because of these factors and other factors discussed in the "Management's Discussion and Analysis of Results of Operations and Financial Condition" in our SEC filings, including but not limited to our annual reports on Form 10-K or quarterly reports on Form 10-Q, copies of which can be obtained from the SEC website, [www.sec.gov](http://www.sec.gov), or our website, [www.bbgj.com](http://www.bbgj.com). While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. All information in this presentation is as of the date of this presentation, and we undertake no obligation to update the information contained herein to actual results or changes to our expectations.
